ABOUT

With over ten years of experience as a graphic designer, working with diverse clients and products, I discovered a deep passion for creating innovative solutions. This path led me to a journey to become a developer and work in crafting web and mobile applications. Combining design and coding has now become my second passion. While I am only at the beginning stages of this path, I firmly believe it will lead me to great heights.

Since 2017 I embarked on a journey to become a developer. To support my learning experience, I have undertaken various jobs along the way. Over the past seven years, I have worked in diverse roles such as general labour gardening, bartending, warehouse work, truck driving, and more. These experiences have contributed to my growth in Australia and added value to my learning journey.

WORK EXPERIENCE

CC&P ADVERTISING SERVICE
Brazil - 2017
Creative Art Director

I have had the opportunity to work on many projects as an Art director. Those projects helped the developing of my skills as a creative person. I learned to approach design challenges with a creative mindset, collaborating with clients and colleagues to deliver good results.

**VOLCANO HOTMIND
ADVERTISING AND PRODUCTION**
Brazil - 2012
Art Director

Volcano was an agency that offered great ideas to connect the public and the products in a different way than any simple advertising would. My experiences reflected and impacted a strong passion for design. My job was to design and develop visual solutions that effectively communicate brand messaging and a strong sense of identity.

DZN ADVERTISING AND MARKETING
Brazil - 2009
Account Executive.

As an Account Executive, I was responsible for pitching new ideas to customers. Follow up on production process and products with print shops and other suppliers to ensure time and cost-effective delivery. And on top of that, maintaining a good relationship with clients.

CARREFOUR RETAIL
Brazil - 2007
Advertising Analyst

Working as an Advertising Analyst, I acquired the skills in analysing campaigns and results to improve their effectiveness, using data and analytical tools to evaluate campaign performance, identify areas for improvement, and provide actionable recommendations.

COVER LETTER

I am writing to express my interest in the Junior Developer role. With a passion for learning and a strong background in diverse work experiences, I believe I can bring a unique perspective and valuable skills to your organization.

Having immigrated to Australia in 2017 to learn a second language, I quickly realized my enthusiasm for continuous personal and professional growth. Along my journey, I developed a strong interest in the development field, particularly web and mobile applications.

To finance my learning experience, I took various job opportunities to support my path. Over the past seven years, I have gained valuable experience in general labour, gardening, bartending, warehouse work, truck driving, and more. These experiences have expanded my skill set and assisted my adaptability, resilience, and strong work ethic.

Furthermore, my background in graphic design, acquired during my earlier professional years, has confirmed my passion for creating innovative solutions. Combining my design skills with the ability to code, I am motivated to explore the intersection between design and development, ensuring a great user experience and sound product delivery.

I am excited about the opportunity to contribute my diverse skill set. And with a genuine curiosity and eagerness to learn, I am confident I can make a meaningful impact and thrive within any company.

I look forward to discussing how my skills and experiences align with the needs of the Company. Please find my portfolio with some of my work, connections on LinkedIn, GitHub, and my resume for a detailed overview of my qualifications. Please do not hesitate to contact me if you require any additional information.
